

Morgan Madison, born and raised in Denver, CO is an artist currently based in the Pacific Northwest. His work incorporates numerous processes including: kiln formed glass, sculpture, drawing and print making. His work revolves around the concept of place and is an investigation of the elements that comprise the natural and built environments around us. His interest in these elements derives from their ability to tell us about the character of the places we inhabit and, most importantly, about ourselves.

EDUCATION

Lewis and Clark College, Portland, OR
-Bachelor of Arts, Studio Art
-Focus in drawing, sculpture and art history
-Study abroad program in Ecuador
